2021 |

2018 |

EXPERIENCE

Software Developer Intern

07/2023 - 08/2023

Bharat intern

- I gained valuable hands-on experience in the field of web development.
- I worked on real-world projects that enhanced my skills in HTML, CSS, JavaScript, and React.js. My responsibilities included designing responsive web pages, building dynamic components, and optimizing UI/UX for better performance and accessibility.

POSITIONS OF RESPONSIBILITY

Project Team Lead

01/2024 - 05/2024

College Team Project

Chandigarh University

- Led a team of five students to develop the “Password manager system” application, fostering collaboration through task delegation, regular meetings, and a shared vision for project success.

Event Coordinator

01/2024 – 05/2024

- Organizing various events, both big and small, that cater to students, faculty, and sometimes the local community. our role involves everything from selecting venues, managing budgets, coordinating with vendors, promoting events, and ensuring everything runs smoothly on the day of the event.

TECHNICAL COMPETENCIES

- **Languages:** C++,Python,Java, HTML, CSS, Javascript, Data Structure and Algorithm
- **Databases and Tools:** SQL, Git: VS Code
- **Libraries/Frameworks:** React, Redux

PROJECTS

Food Delivery Website | HTML, CSS, JavaScript, React js

- Created a website for users to browse menus and place orders online web application designed to simplify online food ordering and delivery.
- Built with HTML and CSS for a clean, modern UI, JavaScript for dynamic functionality, and React.js for efficient component-based development and seamless user interactions.

E-commerce Product Page | HTML, CSS, JAVASCRIPT

- Created an e-commerce product page is a fantastic way to blend design and functionality, providing a seamless shopping experience for users.
- This project involves building a visually appealing and fully responsive product page using HTML, CSS, and JavaScript (and optionally React.js).
